

AI Agent / Environment	Static / Dynamic	Fully / Partially Observable	Deterministic / Stochastic	Episodic / Sequential	Single / Multi-Agent	Discrete / Continuous	Benign / Adversarial	Notes
Tic-Tac-Toe	Static	Fully	Deterministic	Sequential	Multi	Discrete	Adversarial	Simple board game
Checkers	Static	Fully	Deterministic	Sequential	Multi	Discrete	Adversarial	Similar to chess, simpler
Chess (no clock)	Static	Fully	Deterministic	Sequential	Multi	Discrete	Adversarial	Classic strategy game
Chess (with clock)	Dynamic	Fully	Deterministic	Sequential	Multi	Discrete + Continuous	Adversarial	Time adds dynamic pressure
Poker	Dynamic	Partially	Stochastic	Sequential	Multi	Discrete	Adversarial	Partial info & random card dealing
Driverless Car	Dynamic	Partially	Stochastic	Sequential	Multi	Continuous	Mostly Benign / Some Adversarial	Real-world AI in traffic
Vacuum Cleaner	Dynamic / Static	Partially	Deterministic / Stochastic	Sequential	Single / Multi	Discrete	Benign	Grid-based cleaning; multi-agent if multiple vacuums
Part-Picking Robot	Dynamic	Partially	Stochastic	Sequential	Multi	Mixed Discrete/Continuous	Mostly Benign	Warehouse robotics; cooperation possible

Autonomous Drone	Dynamic	Partially	Stochastic	Sequential	Multi	Continuous	Mostly Benign / Some Adversarial	Delivery or surveillance
Warehouse Sorting Robot	Dynamic	Partially	Stochastic	Sequential	Multi	Mixed Discrete/Continuous	Mostly Benign	Multi-robot coordination
Multi-Robot Firefighting	Dynamic	Partially	Stochastic	Sequential	Multi	Continuous	Mostly Benign	Robots collaborate to put out fire
Self-Checkout AI	Dynamic	Partially	Deterministic	Sequential	Single	Discrete	Benign	Scans items and updates inventory
Stock Trading Agent	Dynamic	Partially	Stochastic	Sequential	Single / Multi	Continuous	Adversarial	Competing agents in financial markets
Smart Home Assistant	Dynamic	Partially	Stochastic	Sequential	Multi	Mixed	Mostly Benign	AI interacts with humans and devices
Pac-Man AI	Dynamic	Fully / Partially	Deterministic / Stochastic	Sequential	Multi	Discrete	Adversarial	Ghosts act as opponents
Taxi Routing AI	Dynamic	Partially	Stochastic	Sequential	Multi	Continuous	Mostly Benign / Some Adversarial	Competes or cooperates with other taxis
Collaborative Cleaning Robots	Dynamic	Partially	Stochastic	Sequential	Multi	Discrete	Mostly Benign	Multiple robots coordinate cleaning

AI in Video Games (e.g., StarCraft II)	Dynamic	Partially	Stochastic	Sequential	Multi	Mixed	Adversarial	Complex, real-time strategy environment
---	---------	-----------	------------	------------	-------	-------	-------------	---
