

## Lab 1 Tasks

Task 1:

```
student@student-OptiPlex-7000:~/Documents$ mkdir -p OSLAB2026/LINUX/PRACTICE
```

Task 2:

```
student@student-OptiPlex-7000:~/Documents$ touch intro.txt
student@student-OptiPlex-7000:~/Documents$ nano intro.txt
```

Task 3:

```
student@student-OptiPlex-7000:~/Documents$ touch copy.txt
student@student-OptiPlex-7000:~/Documents$ cp intro.txt copy.txt
```

Task 4:

```
student@student-OptiPlex-7000:~$ cd ~&& cd Documents
```

Task 5:

cp command is used for creating duplicate whereas mv command is used for moving or renaming

```
student@student-OptiPlex-7000:~/Documents$ mkdir docs
student@student-OptiPlex-7000:~/Documents$ touch notes.txt
student@student-OptiPlex-7000:~/Documents$ cp notes.txt \docs
student@student-OptiPlex-7000:~/Documents$ mv notes.txt \docs
```

Task 6:

```
student@student-OptiPlex-7000:~/Documents$ mv intro.txt linux_intro.txt
```

Task 7:

```
student@student-OptiPlex-7000:~/Documents$ cat linux_intro.txt
Welcome to Linux Operating System
```

Task 8:

```
student@student-OptiPlex-7000:~/Documents$ ls -l -a
total 2416
drwxr-xr-x  4 student student  4096 09:46 30 جنوری .
drwxr-x--- 46 student student  4096 2025  5 مئی ..
-rw-rw-r--  1 student student 441072 22' 2025  6 'k-4774_Lab3.odt'
-rw-rw-r--  1 student student 120364 22 2025 30 'k_4780_Lab#02.odt'
-rw-rw-r--  1 student student 941983 23 2025 13 'k2015054.odt'
-rw-rw-r--  1 student student   35 09:39 30 جنوری copy.txt
drwxrwxr-x  2 student student  4096 09:45 30 جنوری docs
-rw-rw-r--  1 student student   35 09:37 30 جنوری linux_intro.txt
drwxrwxr-x  3 student student  4096 09:28 30 جنوری OSLAB2026
-rw-rw-r--  1 student student 941988 2025 13 فروری 'Untitled 567.odt'
```

Task 9:

```
student@student-OptiPlex-7000:~/Documents$ rm copy.txt
```

rmdir is used for deleting empty folders only whereas rm is powerful and used for deleting files and folders

Task 11:

```
student@student-OptiPlex-7000:~/Documents$ mkdir projects
```

Task 12:

```
student@student-OptiPlex-7000:~/Documents$ mkdir project1 project2
```

Task 13:

```
student@student-OptiPlex-7000:~/Documents/projects$ cd project1
student@student-OptiPlex-7000:~/Documents/projects/project1$ touch info.txt
student@student-OptiPlex-7000:~/Documents/projects/project1$ nano info.txt
```

Task 14:

```
student@student-OptiPlex-7000:~/Documents/projects$ cp project1/info.txt project2/
```

Task 15:

```
student@student-OptiPlex-7000:~/Documents$ pwd
/home/student/Documents
```

Task 16:

```
student@student-OptiPlex-7000:~/Documents/projects/project1$ chmod 600 info.txt
```

Task 17:

```
student@student-OptiPlex-7000:~/Documents/projects/project1$ grep "Linux" info.txt
```

Task 18:

```
student@student-OptiPlex-7000:~/Documents/projects/project1$ wc info.txt
1  4 26 info.txt
```

Task 19:

```
student@student-OptiPlex-7000:~/Documents/projects/project1$ touch .config
student@student-OptiPlex-7000:~/Documents/projects/project1$ echo "This is a hidden configuration file" > .config
```

Task 20:

```
student@student-OptiPlex-7000:~/Documents/projects/project1$ cd ..
student@student-OptiPlex-7000:~/Documents/projects$ rm -r project2
```
